JUNE 24TH – NEW EASTERN ORIENT EXPRESS JOURNEY

The purveyors of our other favourite choo (the sound a train makes and not the famous shoes) have added four gleaming new rail journeys to their South-East Asia super luxe track-way - all of which read like titles of an Agatha Christie bestseller.

Legends of the Peninsula is a six-night journey through exotic panoramas from bustling Bangkok to the white sand beaches of Trang; **Fables of the Hills** starts in Singapore and includes an overnight stay in the lush Cameron Highlands; the **Epic Thailand Voyage** is an on-the-beaten-track tour of wild and remote Thai countryside encompassing villages, temples and ancient settlements, while **Tales of Laos** is a three night trip to the vast fields of the north east that ends in the Laos capital

of Vientiane. A remarkable experience well worth the track-time.
